Industry:  
**Information (news)**

Customer's web-site:  
**Under NDA**

## Project's Mission

Landing page with animated timeline representing different mandatory events with their description. Events are related to a specific field of industry. Because of interactivity it allows to perceive information better with it being boring. Also user clearly can see time lag between events.

## Problems

In interactive graphical way to show all major events distributed in time for a specific sphere. Animation of elements should be smooth without delays and braking.

## Solution

Develop the concept, prepare the sources, create interactive graphical representation in the Web. Modern web technologies were used to meet the condition of smooth animation. Also to make it accessible through the global web.
